Supporting Sponsors

The Canadian Lipid Nurse Network (CLNN)

CLNN is a group of dedicated health care professionals whose objectives are to:

- Promote standards for dyslipidemia management in Canada
- Promote standards for management of all cardiovascular risk factors
- Provide education on lipid metabolism and dyslipidemia and CVD risk management for health care professionals
- Provide resources on cardiovascular risk factors to health care professionals
- Support integration of prevention and management initiatives in primary and chronic care

Who Should Attend?

Health Care Professionals involved in the prevention and management of cardiovascular disease through Primary Care, Industry, Lipid Clinics, Cardiac Rehabilitation, Risk Reduction Programs, Diabetes Education or Global Risk Management programs.
